

I have a Business honours degree from Huddersfield University and began my career in the business sector in Hospitality & Facilities Management. I enjoyed 14 years at the University of Wolverhampton as Assistant Director of Estates & Facilities Directorate. During my tenure at the University I married a local farmer and we went on to have two boys. After having the boys, I became more interested in the farming business and spent my time looking after the calves and the financial management of the company. I am passionate about tennis and would love to go to the USA Grand Slam one day, I also enjoy reading and socialising.
