

Matthew Griffin – Foundation Governor

I am a representative of the congregation of St Mary's church and serve as a foundation governor. I support the school's values and its aims to be an inclusive school based on a Christian ethos.

As a parent of former pupils at the school, I consider it important that the school provides a safe and encouraging learning environment and that children are brought together in their school community. My experience is that the school can provide special memories and a confidence that helps a young person growing into teenage years and beyond.

Having joined the Governing Board in 2018, I now appreciate the role of the governors and its importance in supporting the professionals providing our children's education. There is always much to learn whether a pupil or a governor.
